Pupil voice C5

We have been using crumbles in Computing this term. A crumble is a controller to which we can attach lights (sparkles) and motors. We asked Year 5 what they have enjoyed about working with them.

Ava: I liked connecting the crumble and seeing the sparkle light up. It was really fun!

Harrison: I enjoyed making the light flash lots of different colours and making the motor move round and round.

Hadley: I enjoyed coding the crumble to do so many things.

Ethan S It was really cool to make the sparkle flash. I have learned how to use a motor.

Teddy: I liked how interesting the sparkle is when the sparkle flashes and how challenging the crumble is to program and set-up.

Ethan: When we plugged the light in, it was really cool to see it work.

Mrs Miller's Message

As this is the school's 50th birthday year, we are using our singing assemblies to revisit whole school assembly songs from years gone by! This week was 'Morning has broken' and we look forward to singing many others! We are currently organising a fun day to celebrate our school on Friday 11th July; more information will follow soon!

We have one more week until our half term break which marks half way through the academic year! We look forward to seeing you at our parent consultations; do make time to look through your child's books and displays to celebrate what they have done.

Thank you to the PTFA for organising the Magic Show yesterday and Disco this evening. We look forward to seeing some great moves at the disco tonight!

Attendance Matters

Be a H.E.R.O.

(Here Every day Ready On time)

Supporting your child's school attendance

Get your child into a good routine that includes going to bed on time and having a breakfast that will prepare them for the day.

Attend school events, like open mornings, assemblies, and parents' evenings, to build the relationship between school and home.

Try not to be late for school - we know it's not easy! It can be very disorientating for children.

Be as positive and enthusiastic about school as you can. Your child will pick up on it and it will have a positive impact on their attendance.

Green Bees Update

This week, the Green Bees had lots of fun chitting potatoes, getting them ready to plant in about four weeks! Chitting helps the potatoes sprout before they go into the soil, giving them a great head start. Why not get ready to grow your own organic vegetables at home this spring? Now is the perfect time to prepare a patch in your garden for a tasty and healthy harvest!

Reminder

Please can we remind everyone that dogs are not allowed onto school premises at any time. This includes when picking up from clubs or Play Aloud.
Thank you
